

/home/bob/Bob_old/Brain
/Discrete_Planners/include
/Node.h

```
graph TD; A["/home/bob/Bob_old/Brain  
/Discrete_Planners/include  
/Node.h"] --> B[iostream]; A --> C[utility];
```

The diagram illustrates a file path structure. A gray rectangular box at the top contains the path `/home/bob/Bob_old/Brain/Discrete_Planners/include/Node.h`. Two blue arrows originate from the bottom of this box, pointing downwards to two separate white rectangular boxes. The left box is labeled `iostream` and the right box is labeled `utility`.

`iostream`

`utility`
